

## EU SPECIAL INITIATIVES - Electric

- Lighting
  1. T12 Bounty
    - a. 25% bonus for lighting projects that are replacing or retrofitting T12 lighting with LED fixtures or lamps
      - i. Measures may be prescriptive and/or custom
      - ii. 75% CAP remains
      - iii. Cannot be combined with other special initiatives
  2. Non- T12 to LED
    - a. 20% bonus for lighting projects that are replacing or retrofitting non-T12 lighting with LED fixtures or lamps
      - i. Measures may be prescriptive and/or custom
      - ii. 75% CAP remains for total incentive (core + bonus)
      - iii. Cannot be combined with other special initiatives
  
- Controls
  1. HVAC controls
    - a. 20% bonus for the following HVAC Control Measures:
      - i. *Demand Control Ventilation*
      - ii. *Hotel Guest Room Occupancy Sensor*
      - iii. *Energy Management System*
      - iv. *EMS for Manufacturers HVAC Fan*
      - v. *HVAC Occupancy Sensor*
      - vi. *Enthalpy Economizer*
      - vii. *Setback/Setup*
      - viii. *Schools – Setback with no AC*
      - ix. *Air Side Economizer*
      - x. *Chilled Water Reset*
      - xi. Control Measures that require custom calculations and are approved by the Senior Program Manager
      - xii. VFDs do not qualify
    - b. 75% CAP remains for total incentive (core + bonus)
    - c. Cannot be combined with other special initiatives
  2. Process controls
    - a. 20% bonus for process control upgrades.
      - i. Process Control Measures which require custom calculations and are approved by the Senior Program Manager
      - ii. VFDs do not qualify
    - b. 75% CAP remains for total incentive (core + bonus)
    - c. Cannot be combined with other special initiatives
  3. Lighting controls
    - a. 20% bonus for lighting control upgrades:
      - i. *Occupancy Sensors*
      - ii. *Daylight Sensors*
      - iii. *Central Lighting Controls*

- iv. *Stairwell Lighting Controls*
    - v. *Multi-level Lighting Controls*
  - b. 75% CAP remains for total incentive (core + bonus)
  - c. Cannot be combined with other specials
- Bundle/Multi-measure for Refrigeration
  - b. 15% bonus if at least three refrigeration measures are implemented in a project. All work must be incorporated into a single application.
    - i. *Vending Machine Miser (for refrigerated vending machines only)*
    - ii. *Energy Efficient Ice Machine*
    - iii. *Energy Star Solid Door Refrigerators*
    - iv. *Energy Star Solid Door Freezers*
    - v. *LED Lighting for Refrigeration Cases*
    - vi. *Occupancy Sensors for LED Refrigeration Case Lighting*
    - vii. *Walk-In and Case Cooler/Freezer ECMs*
    - viii. *Floating Head Pressure Control*
    - ix. *Anti-Sweat Heater Controls*
    - x. *Cooler/Freezer Strip Curtains*
    - xi. *Cooler/Freezer Door Gasket Seals*
    - xii. *Night Covers*
    - xiii. *New Reach-In Refrigerated Case Door: Medium Temp*
    - xiv. *New Reach-In Refrigerated Case Door: Low Temp*
    - xv. Refrigeration Measures that require custom calculations and are approved by the Senior Program Manager
  - c. Base incentive remains CAP'ed at 75% project cost. Bonus is applied to base incentive of applicable measures and total incentive can exceed 75% of project cost.
  - d. Cannot be combined with other special initiatives
- ✓ All other program rules apply
- ✓ Special Initiatives will be available as long as allocated funds are available.
- ✓ In no event can a project receive more than 100% of project cost

## EU SPECIAL INITIATIVES - Gas

- Controls
    - a. 20% Incentive Bonus on the following prescriptive control measures:
      - i. *Modulating Burner Control*
      - ii. *Boiler Water Reset Control*
      - iii. *Oxygen Trim Control*
      - iv. *Linkageless Boiler Control*
      - v. *Optimized Boiler Plant Sequencing*
      - vi. *Automatic Steam Boiler Blowdown*
      - vii. Measures that require custom calculations and are approved by the Senior Program Manager
      - viii. 75% CAP remains
      - ix. Cannot be combined with other special initiatives
  
  - Boiler and Furnace Efficiency Increase
    - i. 15% Incentive Bonus for the installation of boilers and furnaces that achieve:
      - a. Tier II efficiency for HVAC boilers
      - b. 95% efficiency for furnaces
    - ii. 75% CAP remains
    - iii. Cannot be combined with other special initiatives
- 
- ✓ All other program rules apply
  - ✓ Special Initiatives will be available as long as allocated funds are available.
  - ✓ In no event can a project receive more than 100% of project cost
